

SERVICE LINE COVERAGE

PROTECTION FROM THE UNEXPECTED

When service lines fail, you need Service Line Coverage. This unforeseen and costly exposure is not covered under most Homeowners Insurance policies, which is why we offer it in addition to our standard Homeowners Insurance policies for only **\$40 more a year**. It's also more than just additional policy coverage. It's a promise. A promise to provide the coverage you need and the service you deserve. We've held true to that promise since our founding in 1992.

Don't let a hole in a pipe put your finances in one

Unknown to many homeowners, you're responsible for the underground service lines from the street to your home. This product protects you by extending coverage for damage to underground piping or wiring that connects your home to a public utility service provider or private system.

After service line failure and with this coverage, you can have peace of mind knowing you're covered for the following damages resulting from that failure:

- Damage to an underground service line
- Costs required to repair or replace a damaged covered service line
- Outdoor property damage because of the failure or damage caused during excavation because of it
- Extra cost to make temporary repairs, expedite permanent repairs or permanent replacements to a service line
- Damage to wiring used for communication or data transmission
- Additional living expense and rental costs

While you're still responsible for your deductible with Service Line Coverage, we will cover costs associated with your claim up to \$10,000.

Coverage Examples

- 1 A tree root grew through a sewer pipe located on a homeowner's property causing it to leak. The sewer line was 200-feet long and required a backhoe to dig up the damaged piping and replace it. **We covered the property damage saving the homeowner \$5,800.**
- 2 An underground power line providing electrical service to the home significantly deteriorated over time. It had to be excavated and replaced due to extensive damage discovered during the repair work. **We covered the work and saved the homeowner \$7,800.**

What's Included?

- Wear and tear
- Rust
- Corrosion
- Decay
- Deterioration
- Hidden or Latent Defects
- Freeze
- Collapse (excluding sinkhole or subsidence collapse)
- Electrical or Mechanical Breakdown
- Pressure System Breakdown
